HOPING TO BRIDGE THE GAP BETWEEN FORM AND FUNCTION

Experience

WEB DEVELOPER AT SIDES MEDIA

Small and agile, fast paced development is what a small design firm offers, here I reap the benefits of being dropped right in the middle of all of it. I am currently working here occupying the responsibilities as a Web Developer. HTML/CSS, JavaScript/jQuery and php/MySQL are the tools I mostly use *here*.

USER INTERFACE DESIGNER AT DUANE MORRIS LLP

Alongside the senior software architect, senior web developer, and the Technology director, I designed and developed User interfaces for in-house applications used by hundreds of employees in law offices around the world. Here I was exposed to eclipse and a java-based development environment.

FREELANCE ARTIST

I've been freelancing as an artist working for various game developers making graphical assets for games, websites, and software. This includes the design of interfaces, animations, backgrounds both for mobile devices and computer screens.

Education

ASSOCIATE IN SPECIALIZED TECHNOLOGY

MCC Computer Technology – Software Development Major

HIGH SCHOOL DIPLOMA

Ashworth College – Home School

Kathleen Senior High – Lakeland, PA

Coursework

DESIGNING GRAPHICS FOR THE WEB

I discovered the concepts of digital imaging, including editing, and optimization for web-based delivery. Topics covered included color theory, line and spacing, information design and the use of applications such as Adobe Photoshop.

INTERNET PROGRAMMING I, II & III

Course built on the basics of design, development and database connectivity for web-based applications. Using PHP and JavaScript I worked with a small team to create a web-based Help Desk Ticketing System, Trakstar, for the schools help desk training course.

DATABASE DESIGN AND IMPLEMENTATION

I explored various fundamentals of databases such as database design, normalization, database management systems (Microsoft SQL server), and structured query language (SQL). I worked as part of a team to create a scheduling database for the dean of education.
